

About FDVA

Watching over and advocating for Florida's more than 1.5 million veterans are the men and women of the Florida Department of Veterans' Affairs. The cabinet agency is responsible for assisting, without charge, Florida's veterans, their families and survivors in improving their health and economic well-being through quality benefit information, advocacy, and education.

FDVA's two primary program areas include Benefits and Assistance with staff conducting outreach throughout the state to help veterans connect with their earned benefits and services. Its second primary program is operating the Homes Program running six skilled nursing facilities and one assisted living facility.

"I am so very proud to represent the residents, staff and families at the Clyde E. Lassen State Veterans' Nursing Home. Since opening in 2010, our facility has consistently been recognized for its LEED-certified design, home-like atmosphere, friendly, caring staff and most importantly high quality of care and quality of life for our residents. We now have the honor to serve those who have served us."

Honoring those who served U.S.

Who We Are

The Clyde E. Lassen State Veterans' Nursing Home in St. Augustine (St. Johns County) is a modern, state-of-the-art 120-bed facility providing skilled nursing care and the highest quality of life and medical care to its veteran residents.

Opened in 2010, this is the first nursing home in Florida to be a LEED-certified (Leadership in Energy and Environmental Design) 'green' facility. The Lassen facility also is a tobacco-free campus and can accommodate 60 residents with dementia/Alzheimer's disease.

Operated and maintained by the Florida Department of Veterans' Affairs, the home is licensed by the Florida Agency for Health Care Administration (AHCA) and inspected annually by AHCA and the U.S. Department of Veterans Affairs (VA). It is a five-star rated nursing home by Centers for Medicare and Medicaid Services.

Each of the facility's wings has a nursing station staffed 24 hours by registered nurses, licensed practical nurses and certified nursing assistants.

A full complement of physical therapy, occupational therapy and speech therapy staff is maintained at the home.
