

About FDVA

The Florida Department of Veterans' Affairs (FDVA) is a constitutionally chartered State Veterans' Affairs department responsible for serving the nation's third largest veteran population. Operating as the premier point of entry for Florida's 1.5 million veterans, FDVA operates a network of nine state Veterans' homes and provides statewide outreach to connect veterans with their earned services, benefits and support. The agency's Veterans' claims examiners play a major role in the direct infusion of more than \$23.9 billion annually for veterans into Florida's economy through federal compensation, education and pension benefits, U.S. Department of Veterans Affairs' medical services and military retired pay.
