

About FDVA

The Florida Department of Veterans' Affairs (FDVA) is a constitutionally chartered State Veterans' Affairs department responsible for serving the nation's third largest veteran population. Operating as the premier point of entry for Florida's 1.5 million veterans, FDVA operates a network of nine state Veterans' homes and provides statewide outreach to connect veterans with their earned services, benefits and support. The agency's Veterans' claims examiners play a major role in the direct infusion of more than \$23.9 billion annually for veterans into Florida's economy through federal compensation, education and pension benefits, U.S. Department of Veterans Affairs' medical services and military retired pay.

We take great joy in the relationship between our close-knit staff and the residents they lovingly serve at each of our veterans' homes – everyone valuing healthy life practices and supporting one another. We make sure every Veteran who comes into our facility is well taken care of and feels like they are a part of our family.
